REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the combination of the amendments to the claims and the applicants arguments were persuasive to overcome the 35 USC 103 rejection; the exhibits provided sufficiently demonstrated that the claims were enabled thereby overcoming the 112 1st paragraph rejection; and the amendments clarifying the group "Y" overcomes the 112 2nd rejection. The method of treating cancer claims appear to be enabled by the disclosure of the examples 54-56, including six cell lines and two in vivo mouse studies. Furthermore, the parent compound of podophyllotoxin derivatives are well known in the art for use as cancer treating agents and prior art references such as US 6,566,393 (claim 13) teach related compounds for use in treating cancer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
